New Hydro Power Policy

†* 158. SHRI DATTA MEGHE: Will the Minister POWER be pleased to state:

(a) whether Government is considering to formulate a new policy regarding hydro electric power, in view of the power crisis in the country;

(b) if so, the details thereof;

(c) the plan formulated by Government for removal of obstacles in setting up of hydro electric projects in hilly areas, particularly in North-Eastern States, Uttarakhand, Himachal Pradesh, etc.; and

†Original notice of the question was received in Hindi.

(d) at which places hydro electric projects are planned to be set up during the Eleventh Five Year Plan?

THE MINISTER OF POWER (SHRI SUSHIL KUMAR SHINDE): (a) and (b) A Hydro Policy on hydro power development was announced by the Government in August, 1998 which incorporates several steps and measures for expeditious development of hydro power. Amongst others, it lays emphasis on increasing private investment in the power sector through Independent Power Producers (IPPs) and joint ventures. However based on the experience gained and on the suggestions received from various stakeholders including host State Governments, a revised proposal has been circulated to various Ministries/ Departments for inter-ministerial consultation.

(c) The main obstacles in setting up of hydro-electric projects are as under:

(0 Difficult/inaccessible sites

(ii) Inadequate infrastructural facilities

(iii) Environmental forest and wildlife clearance related problems

(iv) Land acquisition and rehabilitation problems

(v) Adverse geological conditions

(vi) Transmission/Evacuation constraints

(vii) Apportionment of project cost among various beneficiaries

(viii) Law and order problems

(ix) Inter State issues

Steps taken by the Government for removal of obstacles are as under:—

(1) Basin-wise common transmission/evacuation systems have been planned. A high capacity transmission corridor to facilitate evacuation of power from North-Eastern States is being planned through chicken's neck area.

(2) The Government has notified the National Rehabilitation and Resettlement Policy, 2007 strengthening the Rehabilitation and Resettlement (R&R) package for the Project Affected People (PAP) ensuring better compensation package to PAPs which will reduce the time in settlement of R&R packages.

(3) The Government has also announced a mega power policy to incentivize the development of mega power projects. Under this policy, Inter State hydro power projects of 500 MW and above installed capacity qualify for fiscal concession/ benefits as mentioned below:—

(i) Import of capital equipment free of customs duty

(ii) Deemed export benefits as per the provisions of the Foreign Trade Policy to the domestic suppliers

(iii) Income Tax holiday regime as per section 80-1A of the Income Tax Act, 1961

Moreover for the projects located in the States of J&K, North-East and Sikkim, the corresponding threshold qualifying limit has been reduced to 350 MW for hydel projects.

(4) For obtaining early environment and forest clearances, periodical meetings are held with the Ministry of Environment and Forests.

(5) The 50,000 MW hydro electric initiative had been launched in May, 2003 under which Pre-feasibility Reports of 162 hydro electric projects with an aggregate installed capacity of 47970 MW were prepared.

Out of these, Detailed Project Reports (DPRs) of 77 low tariff hydro electric projects aggregating to an installed capacity of about 34,000 MW have been proposed to be prepared. The DPRs of 17 schemes (4060 MW) have already been prepared and DPRs of 26 schemes (13791 MW) are at various stages of preparation. The work on other schemes is held up on account of environment and forest clearance problems, local agitation and change in agency by the State Governments. In addition to it, 76 hydro electric schemes with installed capacity of about 31,118 MW are also under survey and investigation for preparation of DPRs.

(d) During 11th Five Year Plan 16SS3 MW of hydro electric capacity addition has been proposed. The hydro electric schemes identified for benefits during the 11th Five Year Plan are indicated in the Statement.

Statement

Hydroelectric Schemes Identified for Benefits during 11th Plan

Free Legal Services to poor people

* 159. MS. MABEL REBELLO:
SHRI SANTOSH BAGRODIA:

Will the Minister of LAW AND JUSTICE be pleased to state:

(a) whether it is a fact that there is large demand of free legal services to poor people in different parts of the country;
